The British Columbian.

NEW WESTMINSTER, SATURDAY, FEB. 10, 1866.

JAMAICA.

The bloody tragedy recently enacted upon the little island of Jamaica continues to excite deep interest and evoke varied comment in England, as well as elsewhere. The London *Times* appears to be about the only paper disposed to espouse the cause of Governor Eyre. Letters on both sides have been published, denouncing Mr. Gordon as the foulest of traitors, on the one hand, and almost canonizing him as a martyr to the cause of right and humanity, on the other. Gordon's letter, written to his wife during the very brief period which was allowed to elapse between revealing to the unhappy man his sentence and the execution of that sentence, is published; and in that letter, which carries with it all the weight of a dying declaration, he declares his innocence of anything more treasonable than espousing the cause of his oppressed countrymen, and advising them to seek constitutional redress. He, in the most positive language, declares, not only that he had no knowledge of, nor connection with the outbreak, but that he actually did not know Paul Bogle! The strongest point against the Government in Gordon's case would appear to be, so far at least as the circumstances have transpired, the fact that upon hearing that a reward was offered for his head Gordon promptly surrendered himself to the authorities in the District where he was, apparently feeling secure in his innocence, and courting an impartial trial. But instead of giving him a trial before a civil tribunal, he was at once transferred to another district, where martial law prevailed, and was hastily tried by a court-martial composed of young Lieutenants from a war ship, sentenced to be hanged, and the nature of his doom kept from him until within an hour of the time fixed for his execution. Gordon met his terrible fate protesting his innocence and, like the first martyr to christianity, praying for the forgiveness of his murderers. It is difficult, so far as one can judge at present, to see how the conduct of the authorities of Jamaica can be justified, especially in the treatment of the man Gordon, who would appear to have been nothing worse than a pretty hot-headed and enthusiastic leader of Her Majesty's opposition, who had, by his unquestionable talents and influence, rendered himself peculiarly obnoxious to the governing party. But it would obviously be doing an injustice to Governor Eyre, and those who acted with him, to form any judgment upon data as yet available, and it will only be right to await that full and impartial investigation which the matter is everyway likely to receive at the hands of the Royal Commission just sent out. All that the friends of the Governor ask is a suspension of judgment until a proper investigation has taken place; the request is certainly not an unreasonable one. Sir Henry Storks has been appointed to relieve Governor Eyre during the prosecution of these inquiries, and we shall doubtless be made aware of the full circumstances of the terrible insurrection before many months have elapsed. It is difficult to tell how much ground Gordon had for opposition to the Government, but it does appear that the Assembly and Governor, who are just now engaged in a virtual destruction of the constitutional government of the Island, and are indulging in the very worst feelings toward the black population, are not at all likely to be good administrators of the affairs of the Colony, however properly and judiciously they *may* have acted in suppressing the late outbreak. The Government has introduced a bill which contemplates the abolition of the Assembly and Council, and the government of the Island by a Legislative Chamber, composed of the Governor and those whom he may think proper to have as advisers! A bill has also been introduced which strikes at the root of the religious liberties of the people, which is styled "A bill to preserve the public worship of "God from scandalous abuses, superstitious "practices, and seditious purposes." A bill for the wholesale confiscation of the property of those alleged to have been concerned in the insurrection, is also before the legislature. We are also told that "a grand banquet had been held at Morant Bay, in honor of the inauguration of the newly appointed custos of St. Thomas," than which, under the circumstances, it would be difficult to conceive of anything in worse taste —anything partaking more of the "superstitious practices" existing only amongst savage nations. Let us hope that the investigation into the causes of, and circumstances connected with, the insurrection, as well as the necessity for, and justice of, the extreme measures employed for its suppression, will be of the most thorough and impartial character, and that Britons will not have cause to blush on account of what has been enacted under the British flag, and in the name of British justice, on the island of Jamaica.

PROSPECTUS OF THE BRITISH COLUMBIA COAL MINING COMPANY!

[LIMITED].

Incorporated under the Joint Stock Companies' Act, 1856, which limits the liability of each Shareholder to the amount of his Shares.

CAPITAL - - - - - - - - $100,000,

IN 2000 SHARES OF $50 EACH, WITH POWER TO INCREASE.

100 A. SHARES have been issued as paid up shares to the promoters of the company, as the consideration paid them for their right to 600 acres of land, &c. The remaining 200 A shares are reserved for the general benefit of the company. 700 B. shares to be issued to subscribers, subject to payment of $2 per share at the time of subscription, and of calls of $1 per share, per month, until $15 in all shall have been paid, when the subscribers shall be entitled to certificates of fully paid up stock. The remaining 1000 C. shares are reserved for issue at par when the Coal Mine is sufficiently explored and proved.

DIRECTORS:

CAPTAIN JAMES COOPER, Chairman;

JOHN PICKAVANT CRANFORD, Esq.

AUDITOR:

THOMAS MCMICKING, Esq.

BANKERS:

THE BANK OF BRITISH COLUMBIA.

SECRETARY:

WILLIAM CLARKSON, Esq.

This company is organized for the purpose of exploring and mining for Coal, and boring for Coal Oil. The character of the sandstone at Burrard Inlet, its identity with the coal-bearing sandstone of Bellingham Bay and Nanaimo, and the numerous indications of Coal to be found at diffcrent places on the Inlet and on English Bay, make it nearly certain that Coal measures similar to those of Bellingham Bay and Nanaimo will be found at a reasonable depth.

The company have secured a reserve of 600 acres on Coal Harbor, Burrard Inlet; also a right to mine on 600 acres on English Bay, giving to the company a coal field of 1200 acres in extent, and the British Columbian Government has pledged its support in every reasonable way.

It is the intention of the company to immediately put down a bore for Coal—the strong probability being that in less than 90 days the ground will have been prospected and the company ready to sink a shaft and open a mine.

If the Coal croppings at English Bay or Burrard Inlet should be succeeded, as is usually the case, by thicker seams below, it must become an invaluable property. The position of English Bay and Burrard Inlet renders the harbors easy of access in all winds and seasons. The shore is bold, so that no long wharves or tramways would be needed, while the prices of Coal on the Pacific—averaging from two to three times the prices on the Atlantic—render the prosecution of Coal mining one of the most promising enterprises of the day.

The whole of the B. shares are now offered for subscription. The monthly calls on these will be adequate to meet the current expenses of prospecting; the subscribers to these shares incur a small risk, but they get a compensation—a $50 share for the small sum of fifteen dollars.

Parties desirous of obtaining shares may be furnished with every information by applying to the Secretary, at the company's office, in New Westminster.

The company have engaged Mr. John Dick, a practical coal miner of many years' experience both in Scotland and Vancouver Island, to prospect and examine the locality of English Bay and Burrard Inlet. The annexed is his report:—

"To the Board of Directors of the British Columbia Coal Mining Company, Limited.

GENTLEMEN,—After a careful examination of several square miles of the country lying to the southward of Burrard Inlet, I take pleasure in being able to state that, although owing to the general regularity and unbroken nature of the beds of strata there visible I have not been able to discover the outcroppings of any coal seam worthy of note, still there is every indication of the existence of such a seam at no great depth—say from 40 to 60 fathoms. Should my surmise prove correct there is no doubt (judging from the very trifling angle of dip and its freedom from faults and other dislocations of strata) that the field will be quite equal in extent to any yet discovered on Vancouver Island.

For the purpose of further proving the quality of the Coal and its depth from the surface, I would recommend that a series of borings be commenced at such places as, after further deliberation, I shall be prepared to point out. I am, Gentlemen,

Your obedient servant,
jy27tc JOHN DICK.

NEW WESTMINSTER, SATURDAY, FEB. 10, 1866.

THE NEW MAP.

The official guide map of the various gold-fields of British Columbia, just issued from the office of the Chief Commissioner of Lands & Works, is before us. During the past five or six years nearly as many maps of this Colony, either in whole or in part, have been issued, but for real practical information and use the map before us is worth more than either or all of them. The map is drawn upon a scale of twenty-five miles to the inch, and comprises the whole range of country lying between the parallels of longitude 114 and 125, and the parallels of latitude 45 and 56. Upon it are distinctly traced, in colored lines, the routes to the gold-fields of Bridge River, Cariboo, Similkameen, Rock Creek, Kootenay, and Gold Creek, in the Big Bend country. Of course the chief interest of the map consists in its reference to the last named gold-field, and it is to its bearing upon that attractive region that we shall confine our present remarks. We may premise that the map, to use the language of the title to it, is "compiled chiefly from Government reconoisances and recent surveys," and is, consequently, thoroughly reliable in all its main features, at least, in so far as it applies to our own territory. According to this map the distance to the mouth of Gold Creek, by the Fraser River route, is 393 miles, viz., from New Westminster to Yale by steamer 95 miles; from Yale to Savana's Ferry, by Barnard's stage-coaches over a first class waggon road, 123 miles; from Savana's Ferry to the head of Shuswap Lake, by steamer, 110 miles; from the head of Shuswap Lake to the Columbia River, over a good road, and striking the river at a point 30 miles above the Little Dalles, 34½ miles, and thence, by canoes or small boats, to the mouth of Gold Creek, 20½ miles. The route from Portland up the Columbia River to the same point is also laid down upon the map, and distinguished by a blue line, but the distances are not given, from a very proper feeling, we presume, that the Government would not feel justified in doing what might have the appearance of "puffing" our own route. In comparing the Oregon route to the Big Bend with that via the Fraser, we have, therefore, to content ourselves with taking the whole distance, as it appears from measurement upon the map. In this way we find that the distance from Portland to the mouth of Gold Creek is EXACTLY DOUBLE what it is from New Westminster to the same point! So far as the comparative proportion of land and water travel on these two routes is concerned, we find the following to be, as nearly as we can ascertain, the fact: On the Fraser River route there is 133 miles of land travel, over a first class waggon road, and 34½ miles over a good trail, making in all, 167½ miles of land travel. Of course, by taking advantage of such boating as is common upon the Upper Columbia 133 miles of this distance could be saved; but, as a mode of transport either for passengers or freight, this would not compete with stage coaches and waggons. On the Oregon route we find *fully as much land travel as the entire distance by way of the Fraser*, to say nothing of the fact that most of it is over trails of an indifferent character. To sum up, the distance to the mouth of Gold Creek from Portland is about twice as great as from this city to the same place, while the amount of land travel by the former is equal to the entire distance by the latter. If allowance is made for the difference in expense &c., between travelling or freighting by land and by steamer the disparity between the two routes will be still greater. We have made Portland and New Westminster the starting points in calculating the distance to the Big Bend mines by these respective routes, because passengers and freight will be carried from San Francisco to the latter for the same charge as to the former, while the greater distance to this place will be more than set off by the dangers of the Columbia Bar, and the frequent detentions in navigation to Portland. We are not prepared to say, with any degree of definiteness, what facilities for transport are likely to be available next season upon the Oregon route. But with respect to our own we can state that the most complete arrangements will shortly be matured. The steamship subsidized by the Government will bring passengers direct to this port at the same rate of fare as will be charged to Portland, or to Victoria. On arrival here the river steamers will be in waiting to carry them forward to Yale, fare one dollar, time 15 hours. At Yale Barnard's splendid stage-coaches will be in waiting to whirl them over 133 miles of magnificent road to Savana's Ferry, time 24 hours, fare $10. Of course those to whom money is an object can walk, and will find excellent way-side houses all the way. On reaching Savana's Ferry the steamer will be in readiness to convey them to the head of Shuswap Lake, distance 110 miles, time 12 to 15 hours, fare $10. Upon the Government trail from the head of Shuswap Lake to the Columbia River there will be a saddle train for the accommodation of those who may wish to ride; distance 34½ miles, time 12 hours, fare $10. Once at the Columbia River, there will be an abundant supply of canoes and boats to convey passengers to Gold Creek, the centre of the mining region; distance 20½ miles, probable fare $2—probable time 12 hours. We have only to add that, in view of the immense saving in distance alone, to say nothing of the superiority of our navigation and roads, it will be our own fault if we do not secure the trade of the Big Bend mines. We have purposely avoided writing upon this subject until we had reliable data before us; but now that we have the Government map, compiled at a very great cost in money and careful survey and calculation, we have no hesitation in saying that if, in spite of our immense natural advantages, the people of Oregon can snatch the trade from us they richly deserve the prize. In these remarks we have assumed that the passengers coming this way will ship for New Westminster *direct*, as no one would be foolish enough to come by way of Victoria, when they can get a much faster and more commodious steamer to bring them here for the same price that will be charged to Victoria, where they would be subjected to considerable unnecessary detention and expense.

Public Notice.

CONVEYANCE OF MAILS THROUGH BRITISH COLUMBIA.

SEALED TENDERS will be received at the General Post Office, New Westminster, up to 12 o'clock (noon) of the 17th February, 1866, for the conveyance of Letters, and the usual Government mail matter, through British Columbia, for one year from 1st March, next, on the following conditions:

1. From 1st March, to 30th April, and from 1st to 30th November, 1866, a Mail to be dispatched twice a month, at intervals of not more than 16 or less than 14 days, from New Westminster to Williams Creek and intermediate stations, with a branch from Cache Creek to Savana's Ferry, arriving at Williams Creek on or before the tenth day; a Mail to be dispatched from Williams Creek at like intervals and over the same route twice a month.

2. From 1st May, 1866, to 1st November, 1866, Mails to be dispatched from New Westminster to Williams Creek and intermediate stations, with a branch from Cache Creek to Savanna's Ferry, every Saturday, arriving at Williams Creek on or before the tenth day; a Mail to be dispatched from Williams Creek once a week over the same route.

3. During the winter months, from 1st December, 1866, to 1st March, 1867, a Mail to be dispatched from New Westminster to Williams Creek, and *vice versa* once a month, with a branch to Savana's Ferry up and down, and twice a month from New Westminster to Lytton and Lillooet and back.

4. The Contractor to furnish at least two approved Sureties in the sum of £1,000, for the *bona fide* character of his Tender, and for the due performance of his contract, and to be subject to the usual conditions in Government postal contracts.

All further information necessary can be obtained at the General Post Office, New Westminster.

Western Union Telegraph Extension COMPANY.

NOTICE is hereby given, to all whom it may concern, that this Company is not, and will not be responsible for any debts contracted by any person whomsoever in its service or employ, (whether temporarily or otherwise), unless every such debt shall have been previously expressly authorized by either James W. Pitfield, Charles R. Burrage, or myself; who alone are empowered to contract any debts on behalf of the Company in British Columbia or Vancouver Island.

Dated Head Telegraph Office, New Westmiaster, 9th January, A. D., 1866.

EDMUND CONWAY,
ja10tf Assistant Engineer.

MILK.

FROM and after this date, the undersigned will furnish MILK to the citizens of New Westminster and vicinity, at the rate of 75 cents per gallon, until further notice.

All orders left at R. Dickinson's Butcher Shop will be punctually attended to.

S. W. HERRING.

Herring's Ranch, Jan. 16th, 1866. ja27tc

NOTICE TO MARINERS.

A Light Ship has been moored in the Straits of Georgia, off the South Sand Head of Fraser River.

A bright fixed light will be exhibited from sunset to sunrise, which will be visible in smooth weather a distance of ten or eleven miles. The vessel is moored about two cables W. S. W. from the South Sand Head Buoy, leaving a clear channel between them.

A large steel Bell will be continually tolled on board, during thick or foggy weather.

Caution is hereby given, that no vessel will be allowed to anchor within three quarters of a cable length from the Light Ship, and attention is drawn to the Harbour Regulation Ordinance, of 1865.

JAMES COOPER, Harbour Master.
New Westminster, 5th January, 1866. ja6lm

BIG BEND!

—:o:—

To Miners and Travelers.

—:o:—

THE FRENCH PRAIRY HOUSE, 12 miles above Shuswap Lake, on the Government trail to Columbia River, is ready for the accommodation of travelers. Miners wishing to carry their supplies to the mines will find there a very large and well selected stock of goods, provisions, tools, clothing and liquors. Good chance to save one day's hard packing.

D. FAUJAS.

EMBRACE THE OPPORTUNITY

In securing a knowledge of

CLEGG'S SYSTEM

—OF—

Book-Keeping and Writing.

CITIZENS of New Westminster and vicinity, are notified of my present intention to make New Westminster my home, so long as I receive patronage sufficient for a livelihood.

Book-keeping, properly done, should show a TRUE RECORD of one's business, as a mirror shows a TRUE PICTURE of man's physiognomy. Such I propose to do by a simple and plain mode of Double-entry Book-keeping, which is the only true and correct way to keep a set of books. It will answer the Farmer, the Mechanic and the Tradesman as well as the Merchant.

Persons wishing books opened, kept or posted—either by Single or Double-entry, accounts made out, documents copied, together with such other writing as may be desired, would do well to try the undersigned, at his office, the second door north of the Columbia Hotel.

Instructions given either in Single or Double-entry Book-keeping.

DIARIES FOR 1866.

FOR the Pocket, the Counting-House and other purposes, at C. CLARKSON & CO'S.

Important to Business Men in Victoria, California, Portland, and Places on the Sound!

THE JOURNAL is the oldest newspaper published in British Columbia; is read by every business man from New Westminster to the Rocky Mountains, and is unrivalled as an advertising medium for this Colony. SIDNEY RENNELL, in Victoria, and L. P. FISHER, in San Francisco, are our authorized Agents.

The British Columbian.

NEW WESTMINSTER, SATURDAY, FEB. 10, 1866.

LEGISLATIVE COUNCIL.

The Legislative Council met at 3 o'clock on Thursday. Members present:—The hon. the Presiding Member and the hons. Messrs. Crease, Trutch, Hamley, O'Reilly, Franks, Elliott, Homer, Holbrook, Walkem, Cornwall, Brew and Smith.

Minutes of previous meeting read and confirmed.

MESSAGES.

The Hon. the Presiding Officer read two messages from His Excellency the Administrator of the Government, one giving returns of Mining Licences issued during last year, showing the number to have been 2320, and the other, enclosing the following dispatches from the Secretary of State, respecting the Imperial charge of £10,000 for the buildings at the camp:—

The Secretary of State for the Colonies to Gov. Seymour:

CONF. DOWNING STREET, Feb. 24th, 1865.

SIR,—I have the honor to acknowledge the receipt of your dispatch No. 60, of the 8th of October last, on the subject of the claim of the Imperial Treasury to the sum of £10,704 16s. 7d., on account of the buildings erected by the Royal Engineers.

The reasons avowed by you for relieving the Colony from this claim appeared to me deserving of consideration, and I accordingly referred your dispatch to the Lords Commissioners of the Treasury.

Their Lordships however have informed me that they are unable to submit to Parliament a further vote on account of the excess of expenditure in British Columbia for the years 1859 and 1860, a step which a compliance with your recommendation in behalf of the Colony would render necessary.

I have therefore instructed the Crown agents to repay the amount out of the proceeds of the loan raised under the Ordinance of the 10th of March, 1864.

I have, &c., &c.,
(Signed), EDWARD CARDWELL.

DOWNING STREET, June 1st, 1865.

SIR,—I have the honor to acknowledge the receipt of your dispatch No. 23, of the 11th of March, enclosing a copy of a resolution passed by the Legislative Council representing the hardships of enforcing the payment of the claim on account of the buildings lately occupied by the Royal Engineers.

By my dispatch No. 7, of the 24th February, you will have learned that I had not failed to bring your representations on this subject before the Lords Commissioners of the Treasury, but that their Lordships had felt unable to adopt your proposal that the Colony should be relieved of the present charge. It will therefore be necessary to defray it out of the proceeds of the loan at any future time when the Crown Agents may be able to succeed in raising the money.

I have, &c., &c.,
(Signed), EDWARD CARDWELL.

The Secretary of State to the Officer Administering the Government.

DOWNING STREET, Oct. 31st, 1865.

SIR,—With reference to Mr. Seymour's dispatch No. 88, of the 26th June, I have the honor to transmit to you a copy of a letter from the Board of Treasury stating that their Lordships cannot consent to a further postponement of the repayment of the sum of Ten Thousand Seven Hundred and Four Pounds Sixteen Shillings and Seven Pence, for the cost of the buildings erected for the Royal Engineers, and that the Paymaster-General has accordingly been authorized to receive that amount.

I have, &c., &c.,
(Signed), EDWARD CARDWELL.

Mr. Hamilton to Sir F. Rogers.

TREASURY CHAMBERS, Oct. 25th, 1865.

SIR,—With reference to your letter of the 8th of September last, and its enclosures from the Governor of British Columbia on the subject of the claim upon that Colony for Ten Thousand Seven Hundred and Four Pounds Sixteen Shillings and Seven Pence, for the cost of buildings erected for the Corps of the Royal Engineers, I am directed by the Lords Commissioners of Her Majesty's Treasury to acquaint you for the information of Mr. Secretary Cardwell that their Lordships are not prepared to consent to any further postponement of the sum in question.

My Lords have lately received a communication from the Crown agents, reporting that they are prepared to pay the sum, and directions have been given to the Paymaster-General to receive it accordingly.

I am, &c., &c.,
(Signed), G. A. HAMILTON.

Hon. Mr. Walkem presented a petition from certain men who had been employed upon Mr. Munroe's contract on the Cottonwood road, praying that the Government would pay the amount due them for work done upon said road, out of the residue of the contract money remaining in the hands of Government. Mr. Walkem made a few very sensible remarks on behalf of the petitioners, acknowledging that they had no legal claim, as against the Government, but urging the necessity and equity of the case. The petition was received, and on motion of hon. Mr. Crease, refered to a select committee consisting of hons. Crease, Brew, Elliott, Walkem and Holbrook.

NOTICE OF MOTION.

Hon. H. Holbrook gave notice that he would ask the Government for information respecting the construction of a road to the Bridge river mines.

ORDERS OF THE DAY.

Hon. Mr. Walkem introduced his Bill to amend the law regulating the formation of Joint Stock Companies. The Bill was read a first time by title, and the second reading fixed for Monday.

COMPULSORY MINING LICENCE BILL.

This Bill was read a second time by title, and committed for Friday.

THE TRADERS LICENCE BILL.

This Bill was read a second time by title, and considered in committee of the whole, the hon. Mr. Franks in the Chair. The various clauses comprising the body of the Bill having been passed, the schedule thereto was taken up. The first clause which proposes to make a retail liquor licence in towns $250 a year, elicited considerable discussion, and called forth a number of amendments, some members being in favor of a much lower rate and others advocating quarterly payments. Finally the matter was set at rest by hon. Mr. O'Reilly's amendment, making the rate $200 a year, payable half yearly.

The second clause, making the retail liquor licence in rural districts $100 a year, evoked a very warm and protracted discussion. Hon. Mr. Holbrook, who had opposed the second reading of the bill, gave it a very strong opposition in committee, and was ably supported by hons. Messrs. Homer, Cornwall and Smith, who argued that as a fiscal measure it would defeat its object, inasmuch as the effect of raising the price of licences so high would be the means of materially lessening the number of public houses, and, consequently, reducing instead of increasing the revenue derived from that source. They were in favor of $50 a year. Hons. Messrs. O'Reilly and Walkem, on the other hand, were in favor of the rte being $100, and took the ground that if it had the effect of closing a few of the inferior class of houses, and thereby throwing the trade into the hands of a better class, it would be a public good. Upon a division the hon. Mr. Holbrook's amendment to make the licence for rural districts $50 a year was carried, by counting three members who did not vote amongst the yeas, when the committee rose, reported progress, and asked leave to sit again.

THE ESTIMATES.

The hon. the Presiding Member rose and addressed the House in effect as follows: Honorable Gentlemen,—In laying the Estimates before you it will be unnecessary for me to tell you they have been framed with every view to economy and retrenchment, consistent with the interests of the Colony and general working system of a Crown Colony. It is the wish of his Honor, as well as my own, that the expenditure should be curtailed as much as possible; but in a Colony so widely extended as ours, where the inhabitants are scattered abroad on all sides, many expensive establishments have to be maintained, as well for the collection of revenue as for the preservation of peace and order; and the absence of crime throughout the Colony is a proof of the advantages derived. [illegible] an amalgamation of some of the [illegible] made but as many of the appointments are made by the Crown, such could not be effected without the sanction of the Home Government, and it is a question for this House to consider whether it would be wise, whether it would be politic, to attempt to abolish offices, which the prosperity of the Colony and increased population perhaps in two years might oblige them to remake; and it is not the custom of the Home Government to displace those who have accepted Colonial employment, except for incompetency. A reduction has, however, been made in the establishments, and a clear saving effected of $18,000. This amount would have been more on the reductions were it not for the increase of salary voted last year by the House, and the creation of new appointments, principally connected with the Light Ship. This in itself requiring an annual sum of $6,360, besides other contingent expenses, for its support. But notwithstanding these reductions, an increased jurisdiction over a wide and extensive gold-producing district has been attained, which, without an increased expenditure for an establishment, will be a saving to the colony of over $11,000. The reductions have principally been effected in the magisterial departments in the interior. The towns of Douglas and Lytton, which, in the earlier days of the colony, from the local mining population scattered around, were comparatively places of importance, requiring resident magistrates and a staff of police, having now dwindled down into places of minor importance, an amalgamation of the districts has been made, and the magistrates, toll-collectors and constables, removed. The colony has suddenly and unexpectedly been called upon to pay to the Imperial Treasury a large amount which it was calculated would form a portion of this year's revenue. I allude to the payment of £10,704 for the Camp buildings. This amount, taken in connection with the deficiency which will be sustained by the proposed abolition of the Gold Export Tax, a sum in itself amounting to $55,000, reduces the revenue of the present year very considerably, but a claim of £9,000, a balance of military expenditure, has been made to the Secretary of State, and has been placed in the Estimates, somewhat counterbalancing the first amount I alluded to.

In consequence of these deficiencies many important public works will have to be deferred till a more prosperous season, and you will find the sum for the construction of trails and roads and exploration comparatively small, but should the prosperity of the Colony increase and the revenue justify it, a larger sum will be appropriated for these purposes, until then the Colony must be content with less costly works. A heavy debt has been incurred in the construction of roads and other improvements, of over £200,000, the interest and sinking fund, of which absorbs nearly one seventh of our present revenue. This becomes a first charge on the Colony. Expensive subsidies for the carriage of mails, both interior and exterior, are required and the minor wants of the Colony must give way to those more important. To meet the estimated expenditure and make up for the deficiency arising from the abolition of the Gold Export Tax, the Customs Receipts have been estimated beyond that of the last year. This has been made on the confident expectation of an increased trade flowing not only throughout port at New Westminster but across the southern boundary to the Columbia and Kootenay mines. An increase in spirit and trade licences is estimated at $13,000; to accrue from the proposed amended licence ordinance. An augmentation to the mining population is confidently expected on all sides, and the probable increase in the revenue from mining licences and mining receipts is based on this supposition, but in a country where the population is so migratory and the seasons for commencing business so uncertain, an accurate estimate of revenue can scarcely be formed.

FRIDAY'S SITTING.

The House met at 3 o'clock, and continued in session until after 6 o'clock. The whole time was occupied in considering the Trades Licence Bill, in Committee of the Whole. As the Bill was not got through with, it will be as well to say nothing about the changes made in it until completed.

The House adjourned till 2 o'clock on Monday.

THE ESTIMATES.

REVENUE DETAILED.

BRITISH COLUMBIA COAL MINING COMPANY, LIMITED.

The first general meeting of this Company was held in the Hyack Hall, on Wednesday, Capt. Cooper in the Chair. The report was read by the Secretary, and was adopted by the shareholders, when the Chairman explained that according to the Act of Parliament regulating Joint Stock Companies, the Board now retired, and it rested with the shareholders to elect their successors. The following Board was elected: *Chairman*, Capt. J. Cooper. *Secretary*, W. Clarkson. *Members of the Board*, Geo. Dietz, S. P. Moody, J. A. R. Homer, John Robson, W. J. Armstrong, Wm. Grieve, J. S. Clute, C. J. Hughes.

After some discussion respecting the prospects and details of the work, a resolution to prosecute the bore was passed.

It appears from the report that the bore has already reached a depth of 380 feet, and that it has passed through three seams of coal five, nine and sixteen inches in thickness respectively, and Mr. Dick, the manager, reports highly favorable indications.

THE "MONSTER PETITION"—NEWSPAPER DEPRAVITY.—Some of our readers will doubtless have seen a leading article in the Victoria *Colonist* of the 2d instant, being a conglomeration of the most scurrilous abuse of ourselves and glorification over a petition for Union, said to be signed by the people of every district in this Colony, save and excepting New Westminster only. We can well afford to pass over that portion of the article directed against ourselves, holding, as we do, that abuse from such a quarter is the highest compliment we could receive. But our readers will hardly be surprised when we tell them that this "monster petition" is the identical one which the celebrated "fresh water pedlar," Capt. Evans, took up to Cariboo early last spring, and that, after being hawked through both Colonies during about nine months, it only bears FOUR HUNDRED AND EIGHTY-SEVEN SIGNATURES, OF ALL SORTS, about one-third of which, as nearly as we can learn, are "bogus"!!

VANCOUVER ISLAND.—The steamer Enterprise arrived from Victoria last evening, bringing the usual files of Victoria papers, from which it would appear that a "dead lock" between the Government and the Legislature is inevitable. The Vancouver Government has subsidized the str. Labouchere to run between San Francisco and Victoria for one year, at the rate of $1,500 per trip, and not to make less than two trips per month,—*She can't do it.*

FROM OLYMPIA.—The str. Emily Harris arrived yesterday from Olympia with 60 head of cattle, 50 sheep and a lot of hogs, grain, &c., for P. L. Anderson & Co., of the New Westminster market. She took the greater part of the cattle to Mr. Anderson's ranch at the Masque Prairie.

A NEW MARKET.—It will be seen by reference to our advertising columns that a new butcher's shop has been opened next door to Mr. Armstrong's store.

POSTPONED.—The meeting of subscribers to the British Columbian Hospital, which was appointed for the 13th is postponed till the 20th inst.

FROM UP-RIVER.—The str. Onward, Capt. Irving, returned last evening. The attempt to cut away the ice jam at Union Bar had failed, and the Onward discharged her cargo at Hope.

CARD OF THANKS.

At a meeting of the "Hyack" Fire Company held on Wednesday Evening, Feb. 7th, it was resolved that a vote of thanks be given to Mr. J. Cunningham, [illegible] displayed by the generous [illegible] Bank and that [illegible] of the same be published in the British Colonist.

CURES AND COMFORT FOR THE BED-RIDDEN

—BY—

HOLLOWAY'S OINTMENT.

This wonderful Ointment acts like magic in relieving and curing old sores, wounds, bad legs, ulcers, and eruptions of the skin; when rubbed on the surface it penetrates and purifies each tissue on its passage, and exerts the most wholesome influence over the internal structures. It heals by cleansing all animal fluids with which it comes in contact, and therefore promotes a sound and permanent cure.

Gout and Rheumatism.

To sufferers from the racking pains of Rheumatism and Gout this Ointment will prove invaluable. After fomentation with warm water the soothing action of this Ointment is most remarkable; it seems at once to lessen inflammation, ease pain, reduce the swelling, restore natural circulation, and expels the disease. For the above complaints Holloway's Ointment and Pills are infallible specifics.

Diptheria, Bronchitis, Sore Throats, Coughs and Colds.

This class of diseases may be cured by well rubbing the Ointment, three times a day, upon the throat, chest, and back of the patient. It will soon penetrate and give immediate relief. In all stages of Influenza, Colds, and Bronchitis, this treatment may be followed with efficiency and safety—indeed, it has never been known to fail.

All Varieties of Skin Diseases, Scrofula and Scurvy.

This Ointment is a certain cure for Ringworm, Scurvy, Scrofula or King's Evil, and the most inveterate skin diseases to which the human race is subject. They cannot be treated with a safer or more speedy remedy than Holloway's Ointment, assisted by his celebrated Pills, which act so powerfully on the constitution and so purify the blood that these disorders are completely eradicated from the system, and a lasting cure obtained.

Dropsical Swellings.

Beware of this dangerous and stealthy complaint, which frequently creeps upon us by slight squeamishness or trifling jaundice, of which little or no notice is taken until the legs begin to swell. The cause of the evil must be looked for in the liver and stomach; therefore, set to work earnestly, by taking Holloway's famous Pills according to the printed instructions, and rubbing the Ointment very effectively over the pit of the stomach and right side, where those organs lie. Most dropsical cases will readily yield to the combined influence of the Ointment and Pills.

Piles, Fistulas, and Internal Inflammation.

These complaints are most distressing to both body and mind, false delicacy concealing them from the most intimate friends. Persons suffer for years from Piles and similar complaints when they might use Holloway's Ointment with instant relief, and effect their own cure without the annoyance of explaining their ailment to anyone. The Pills greatly assist the Ointment, as they purify the blood, regulate its circulation, renew diseased structures, and invigorate the entire system.

Disorders of the Kidneys, Stone and Gravel.

Are immediately relieved and ultimately cured if this Ointment be well rubbed, twice a day, into the small of the back, over the region of the kidneys, to which it will gradually penetrate, and in almost every case give immediate relief; but perseverance will be necessary to effect a thorough cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs.	Chapped Hands.	Scalds.
Bad Breasts.	Contracted and Stiff Joints.	Sore Nipples.
Burns.	Elephantiasis.	Sore-throats.
Bunions.	Fistulas.	Skin-diseases.
Bite of Mosquitoes and Sand-Flies.	Gout.	Scurvy.
Coco-bay.	Glandular Swellings.	Sore-heads.
Chiego-foot.	Lumbago.	Tumors
Corns (soft).	Piles.	Ulcers.
Cancers,	Rheumatism.	Wounds.
Chilblains,		Yaws.

Sold at the establishment of PROFESSOR HOLLOWAY 244, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilised world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.

*** There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot. de6 1y
